

Methods in Protein Structural Analysis 2006

Posttranslational modifications : analysis and function

Lille, France, August 29th –September 2st, 2006

The aim of this conference (MPSA2006) is to bring together scientists involved in the analysis of different posttranslational modifications by various approaches with those involved in the study of the biological relevance of these modifications.

Meeting Website: <http://www.univ-lille1.fr/ugsf/PSA.htm>

| | | |
|-----------------|-------------------------|-------------------|
| Topics : | Phosphorylation | Mass spectrometry |
| | Methylation/acetylation | Structural impact |
| | Ubiquitin/SUMO/... | Interactions |
| | Glycosylation | Function |

Confirmed Speakers : D. Allis (New York, USA), G. Almouzni (Paris, France), A.L. Burlingame (San Francisco, USA), N. Callewaert (Ghent, Belgium), A. Cozzone (Lyon, France), A. Dell (Oxford, UK), K. Gevaert (Ghent, Belgium), D.W. Hunt (Charlottesville, USA), N.L. Kelleher (Urbana, USA), D. Kirkpatrick (Boston, USA), M.E. Linder (St. Louis, USA), K.P. Lu (Boston, USA), G.P. Nolan (Palo Alto, USA), B. Olivera (Salt Lake City, USA), T. Pawson (Toronto, CA), C. Rochette-Egly (Strasbourg, France), P. Roepstorff (Odense, Denmark), L.W. Ruddock (Oulu, Finland), T.K. Sixma (Amsterdam, the Netherlands), N. Taniguchi (Suita, Japan), V.G. Wilson (College Station, USA).
