Journal of Proteomics

Editor in Chief:

Juan J. Calvete, Valencia, Spain

Executive Editors:***Proteomics in Cell Biology***

J.-J. Diaz, Lyon, France

Proteomics in Microbiology

C. Gil, Madrid, Spain

Proteomics in Plant Systems

J.V. Jorrín, Córdoba, Spain

Proteomics in Animal Models

D. Neri, Zürich, Switzerland

Proteomics in Protein Science

J. Peter-Katalinić, Münster, Germany

Biomedical Applications of Proteomics and Congress Proceedings

J.-C. Sanchez, Geneva, Switzerland

Proteomics of Body Fluids and Proteomic Technologies

P.G. Righetti, Milan, Italy

Bioinformatics in Proteomics

P. Højrup, Odense, Denmark

The *Journal of Proteomics* covers all areas of applied and basic research in Proteomics using multi-disciplinary approaches to unravel biological processes. Emphasis is placed on translational research and biomarker discovery in human, animal, microorganism and plant systems. The journal provides a forum for activities in proteomics and helps strengthen the links between research scientists all over the world. In addition to original papers, the journal publishes frequent review and update papers, letters to the editor, book reviews, reports and news as well as Proceedings of EuPA national congress. The journal also publishes the official EuPA guidelines papers.

Coverage

Reviews, original articles, technical notes, editorials, news & views (commentary, science policy issues, ethical and legal issues, education, industry needs and alliances, regulatory issues, news items), letters to the editor, conference announcements, advertisements.

Audience

Academic and industrial researchers in the fields of proteomics, chemistry, biochemistry, biology, medicine, bioinformatics, protein science, biotechnology and applied physics.
