PRINCIPAL INVESTIGATOR: Felipe X. Pimentel Muiños

SCIENTIFIC PROGRAM: Immune System Development and Function

JOB OFFER: Predoctoral Investigator (application for a predoctoral fellowship- Fundación Ramón Areces)

TITLE OF THE PROJECT:
Unconventional autophagy in health and disease

DESCRIPTION OF THE PROJECT:
Our lab studies the role of unconventional autophagic mechanisms in physiological processes linked to diseases like inflammatory pathologies, anti-tumor immunity and innate defense against bacterial infections. More information in the lab web page: https://www.cbm.uam.es/fxpimentel

DURATION:
4 years

ACADEMIC REQUIREMENTS:
We are looking for graduates in biomedical degrees (Biochemistry, Biology, Biotechnology, Pharmacy…) with an average score higher than 2.5 (1-4 scale) or 8.5 (1-10 scale) and highly motivated for biomedical research and its implications in human disease.

CONTACT:
fxp@cbm.csic.es

DEADLINE:
10/10/2023

ADITIONAL INFORMATION:
Interested candidates please send CV, academic track record, motivation letter and contact information of possible references to the Principal Investigator: fxp@cbm.csic.es
